

- **Differential Pressure Transmitter**

Features:

- Ranges: from vacuum to 200 bar
- Casing fully stainless steel AISI 304
- Protection IP-65
- Connections: Thread 1/4" NPT-F
- Accuracy 0,5% F.S. (repeatability, histerisis, linearity)
- Resolution of analog output infinity
- Sensor Piezoresistive
- Adjust of Zero and Span in 10%
- Connector DIN 43650
- Temperature of casing 55°C (max)
- Media Temperature -10 +80 °C
- Output signal 4-20mA – 400 Ω ohms (max)
- Input 9 to 30Vcc
- Consumption max current of 60mA
- High immunity EMI-RFI (radio frequency)

Applications:

- Control of process
- Management the systems of energy
- Measurement of flow of gases and corrosive liquids
- Measurement of level in pressurized tanks
- Pressure of saturation of filters
- Ventilation of systems and air conditioning
- Pollution systems control
- Control of pressure of rooms acclimatized

Sensor Piezoresistive SS-304/316

Circuit Board
